

## MobileScribe

We hear you, road warriors

**Ron Carson**

@rchusker  
Founder and CEO of @CarsonGroupLLC  
@CarsonWealth  
Advisory services through CWM, LLC, Registered Investment Advisor.

*"Copytalk is a fundamental time-saver tool, for us and for hundreds of firms we consult with across the country. Businesses need to run as fast as their people, empowered by tools that allow them to do what they need from wherever they are"*

@RChusker

### We hear and meet your demands for...

#### Accuracy

Exceptionally accurate verbatim documentation of all client conversations.

#### Responsiveness

Transcriptionists who will follow your directions and flag whatever is unclear.

#### Privacy

Your data denied to those unauthorized to see it.

#### Security

Your files protected against illicit attempts to access them.

#### Fluency

Highly-skilled live transcriptionists fluent in financial terminology.

#### Convenience

A service that will take your dictation whenever you choose.

## The Skinny On Transcription Services

*When you see transcription services offered at unrealistically low prices, please bear this mind: They're typically of low quality, prepared overseas, or by at-home transcriptionists working with little or no oversight. Some use inaccurate voice-recognition technology that can jeopardize your privacy.*

*Copytalk, on the other hand, employs only live transcriptionists working in-house at locked down workstations within one of our securely managed transcription facilities. Our scribes can't access subscriber information and have the dictation for only as long as it takes to transcribe. We purge your data after 60 days.*

*In sum, we are unparalleled in our delivery of accurate transcriptions, impeccably formatted, and prepared in line with protocols that protect your privacy and safeguard your security.*
