The stock market is on a tear, and investors face a tricky question: Will the rally last?

The S&P 500 index on Friday recorded its fifth consecutive week of gains, its longest winning streak since the fall of 2021.

However, a broader rally is beginning to take hold. The average stock in the S&P had barely budged until the beginning of June, but has since posted strong gains. The Russell 2000 index, which tracks the performance of smaller companies more exposed to the ups and downs of the domestic economy, has jumped 7 percent in June alone.
