

San Diego Water Temperature

(Today) 1st Jan 2025

13.9 °C /
57.1 °F

The water will feel cool (fresh). Probably too cold for all but seasoned swimmers. We'd recommend a 4mm or 5mm wetsuit if you want to stay in the water.

*Live data from San Diego, CA:
15.0 °C / 59 °F

Coney Island Water Temperature

(Today) 1st Jan 2025

4.7 °C /
40.5 °F

The water will feel very cold. For the hardcore only. The water is now dangerously cold and most people will risk hypothermia if not equipped with a thick, 6/5mm wetsuit along with boots and a hood

Milwaukee Water Temperature

(Today) 1st Jan 2025

4.3 °C /
39.7 °F

The water will feel very cold. For the hardcore only. The water is now dangerously cold and most people will risk hypothermia if not equipped with a thick, 6/5mm wetsuit along with boots and a hood

Myrtle Beach Water Temperature

(Today) 1st Jan 2025

14.7 °C /
58.4 °F

The water will feel medium. The water will feel a bit chilly in just bathers / swimming costume. If you plan on wearing a wetsuit 4/3mm should be thick enough.
