Kevin Warsh Is Trump's Man—and His Own. How He Will Reshape the Fed.

Kevin Warsh is President Trump's nominee for the next chair of the Federal Reserve, Trump says in a social-media post.

...

The financial markets' initial reaction to the nomination was modest, suggesting investors are taking it in stride. They can expect a Fed that eases rates in the short term. And if inflation starts to bite, they have reason to hope that Warsh will act, despite Trump's insistence that the Fed must keep rates low.
